

- 9:15 Angelo Rossoni *"Role of stress in silicon devices and its contribution to Local Layout Effects (LLE)"*
- 9:30 Egit Musaev *"Advanced Instrumentation for Quality Assurance, Agricultural Enhancement, and Environmental Safety"*
- 9:50 Stefano Migliorati *"Analysis and simulations on antimatter experiments with antiproton at low energies"*
- 10:10 Ruwan Patabendi *"Design and development of Innovative Instrumentation for Material Analysis and Environmental Protection"*
- 10:30 Luigi Pintore *"Automatic modeling and reconstruction of indoor environments from panoramic capture"*

10:45 break

---

11:00 Presentation of new DRII & Tech4Health PhD students-XXXIX Cohort
